

Moments And Eternal Love - Leitmotiv of ELENAREVA

The leitmotiv of ELENAREVA winter collection is the time, expressed in terms of the life cycle.

Expanding the idea of transience of time, Elena Reva offers its own formula of reality: the value of time, attention to important life. The topic subtly traces by the familiar ELENAREVA decorative methods - in embroidery and art prints.

Flowers, as a symbol of inexhaustible source of life, symbolically combined with sharp cutting lines and graphical grid, creating exquisite patterns on the silk and lace. Embroidery on clothing scatters in the wind and we only see snatches of conversation from Ecclesiastes There is a time for everything, and a season for every activity under the heavens. Every outfit creates its own semantic field, where everything looks like a concrete statement.
